Foreword

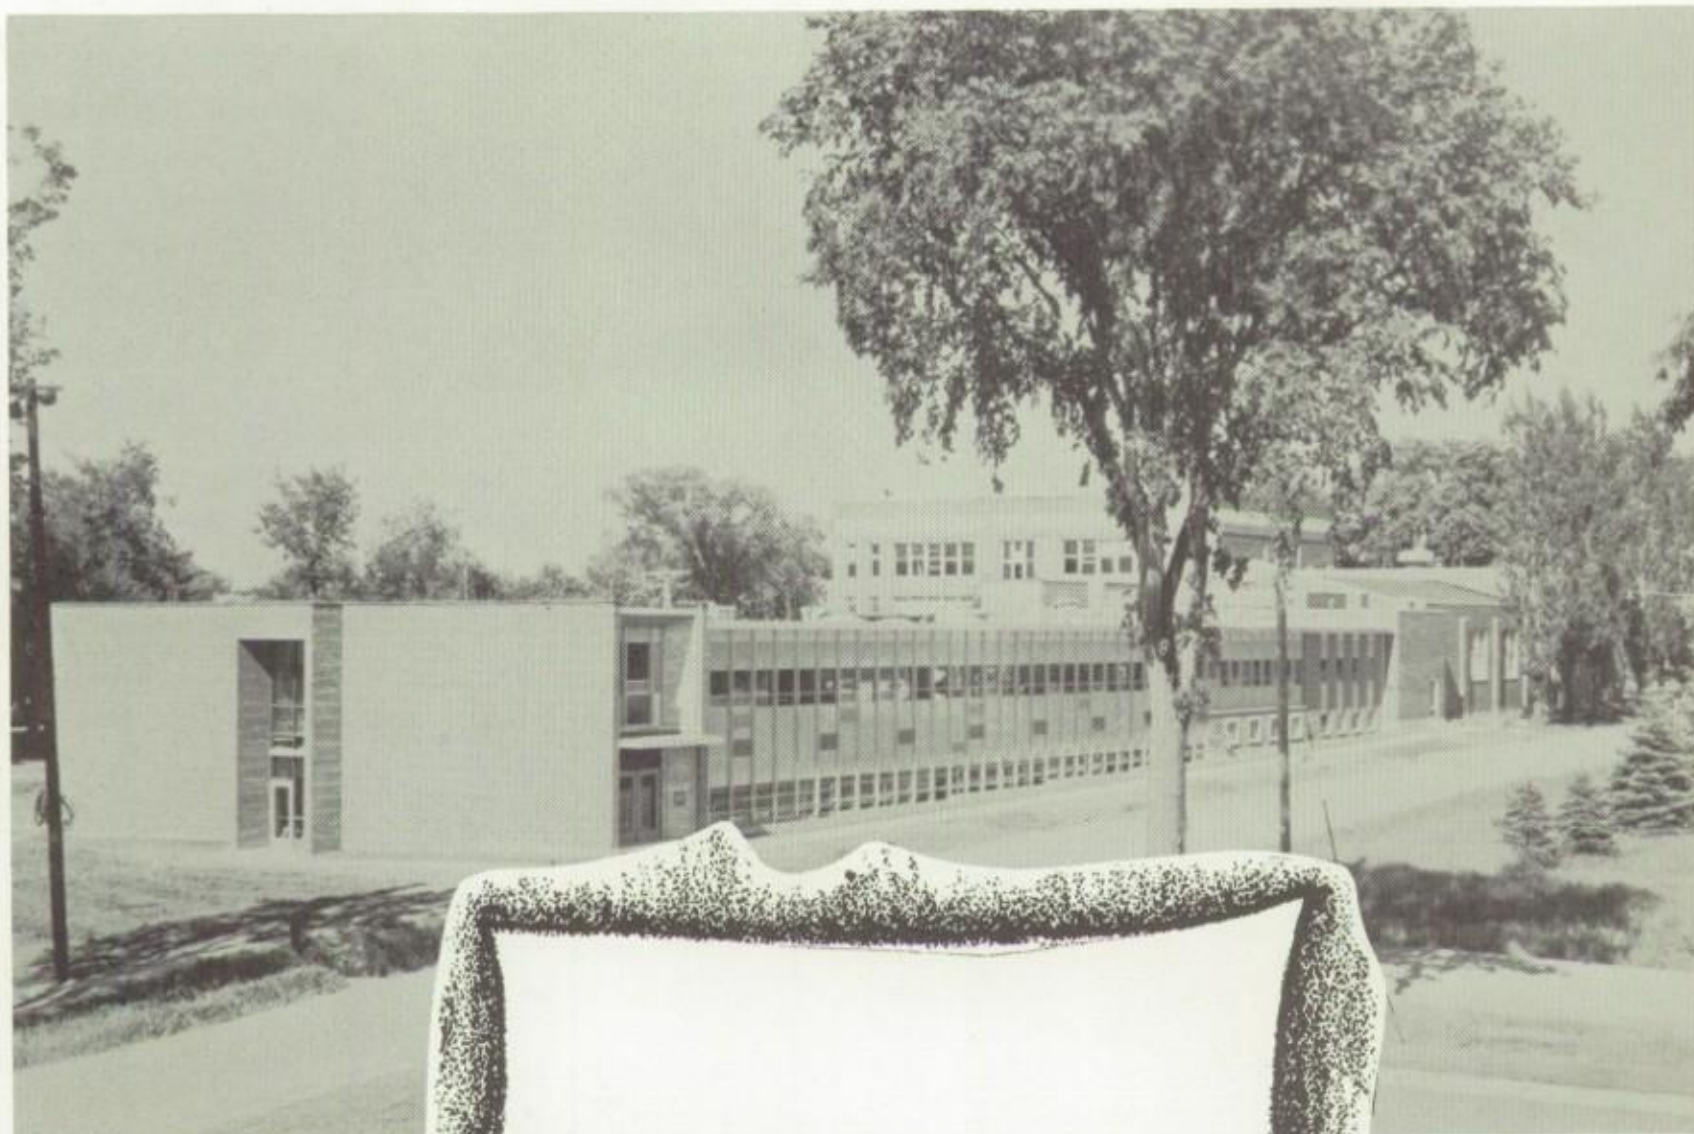

This is the story of your life in the Greenwood High School during the 1959-1960 school year.

Traffic jams in the halls, crowded class rooms, and an over-flowing study hall will all be committed to memory as we become the last students to walk through the halls of the old high school building.

We, the '60 CHIEFTAIN STAFF, have worked throughout the last year planning and editing your yearbook and we sincerely hope that it will preserve a wealth of memories for you now and in the future years to come.

The Staff

Dedicated to Progress

The New . . .

To the Spirit of Progress - the Spirit that has been instilled in Greenwood High School since its very beginning; that has realized the ever increasing needs of adequately educating its students; that will continue to serve the future students of Greenwood in the new high school building - We, the largest and last class to graduate from the old high school building reverently dedicate this 1960 Chieftain.

. . . The Old

We Are Proud to Present . . .

Our Principal

CLIFTON FONSTAD, PRINCIPAL

In our short time on this earth we have had the opportunity to see a fantastic, exciting and wonderful world of electronics, atomic power, miracle drugs and space travel develop that even the most imaginative person would not have dared dream of a few decades ago. This is the world you will become a part of. Never have there been so many things developed to make life easier and more pleasant - and never have there been so many real challenges for young people with imagination and ambition.

We hope that Greenwood High School has helped prepare you for a responsible part in this world of tomorrow. We hope that we have helped you to appreciate and understand it a little better and have made you aware of the opportunities open to you and your responsibilities in it. We hope that the four years spent in Greenwood High will prove useful and important years to you.

The Class of 1960 deserves a great deal of praise for the fine job that has been done in compiling this record of the past school year. May it bring all who played a part in the school much pleasure and help recall many happy memories as you page through it.

Classes

English Provides Basic Language Principles

World Literature and grammar are studied extensively in College Prep. English class. Here members of the class listen attentively as Jim Ulesich gives an interesting oral report. Along with speech activities, Mrs. Johnson taught us the fine arts of paragraph and composition writing, vocabulary, and correct usage. The Seniors also read portions of English, Russian, French, Greek, and German Literature.

PRACTICAL ENGLISH was used in Mrs. Olson's English class. The students learned general usage, vocabulary, and spelling. Here they are shown starting the next day's writing assignment.

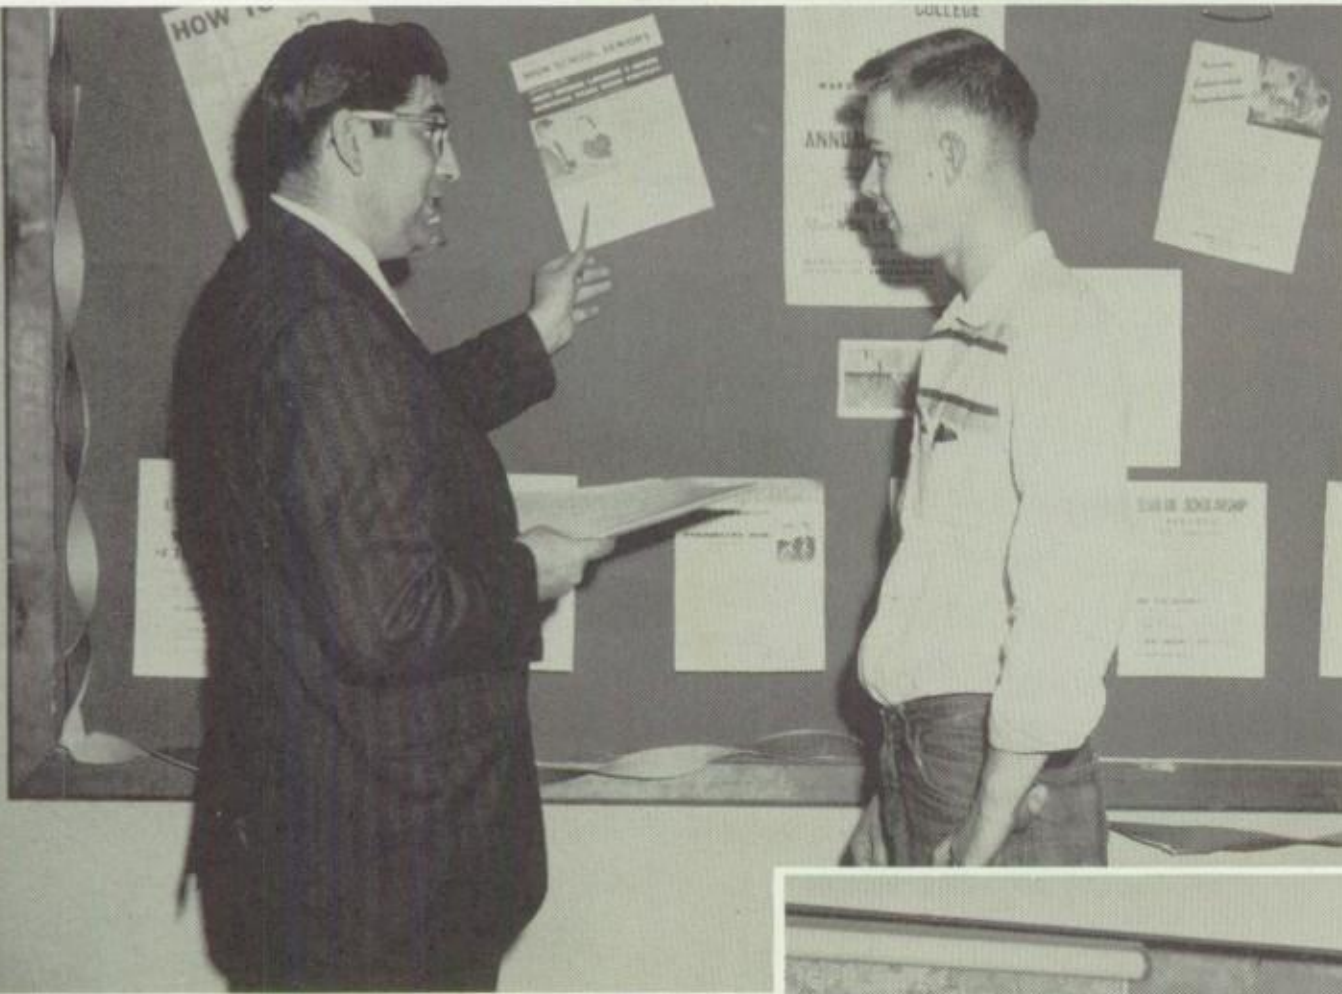

Early United States Literature had a new and deeper meaning to the students in G. H. S. after the sophomore and junior English classes read HUCKLEBERRY FINN and TOM SAWYER. Illustrations of Tom, Huck, and Mark Twain hung on all available wall space. Replicas of steamboats and log rafts were on tables, window sills and whatever else could be found. Dick Lindner and Jon Schendel are shown with some of the many projects.

Social Studies Keep Students Informed

Terry McConnell, Bob Fredrickson, Karen Engle-bretson, Karen Toburen, and Kathy Gregorich watch as Tim Plunkett points out an interesting fact about one of our presidential candidates. Civics class teaches the leaders of tomorrow how to uphold our democratic way of life.

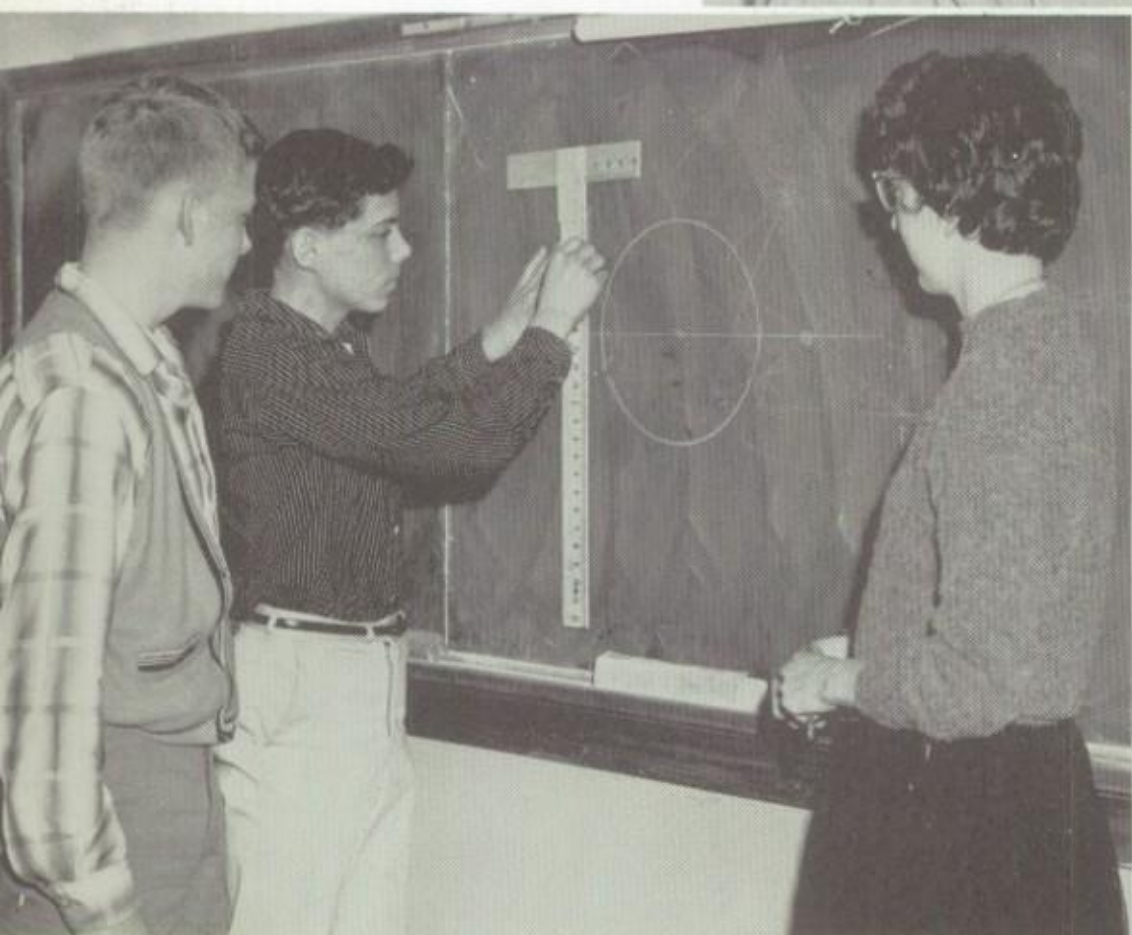

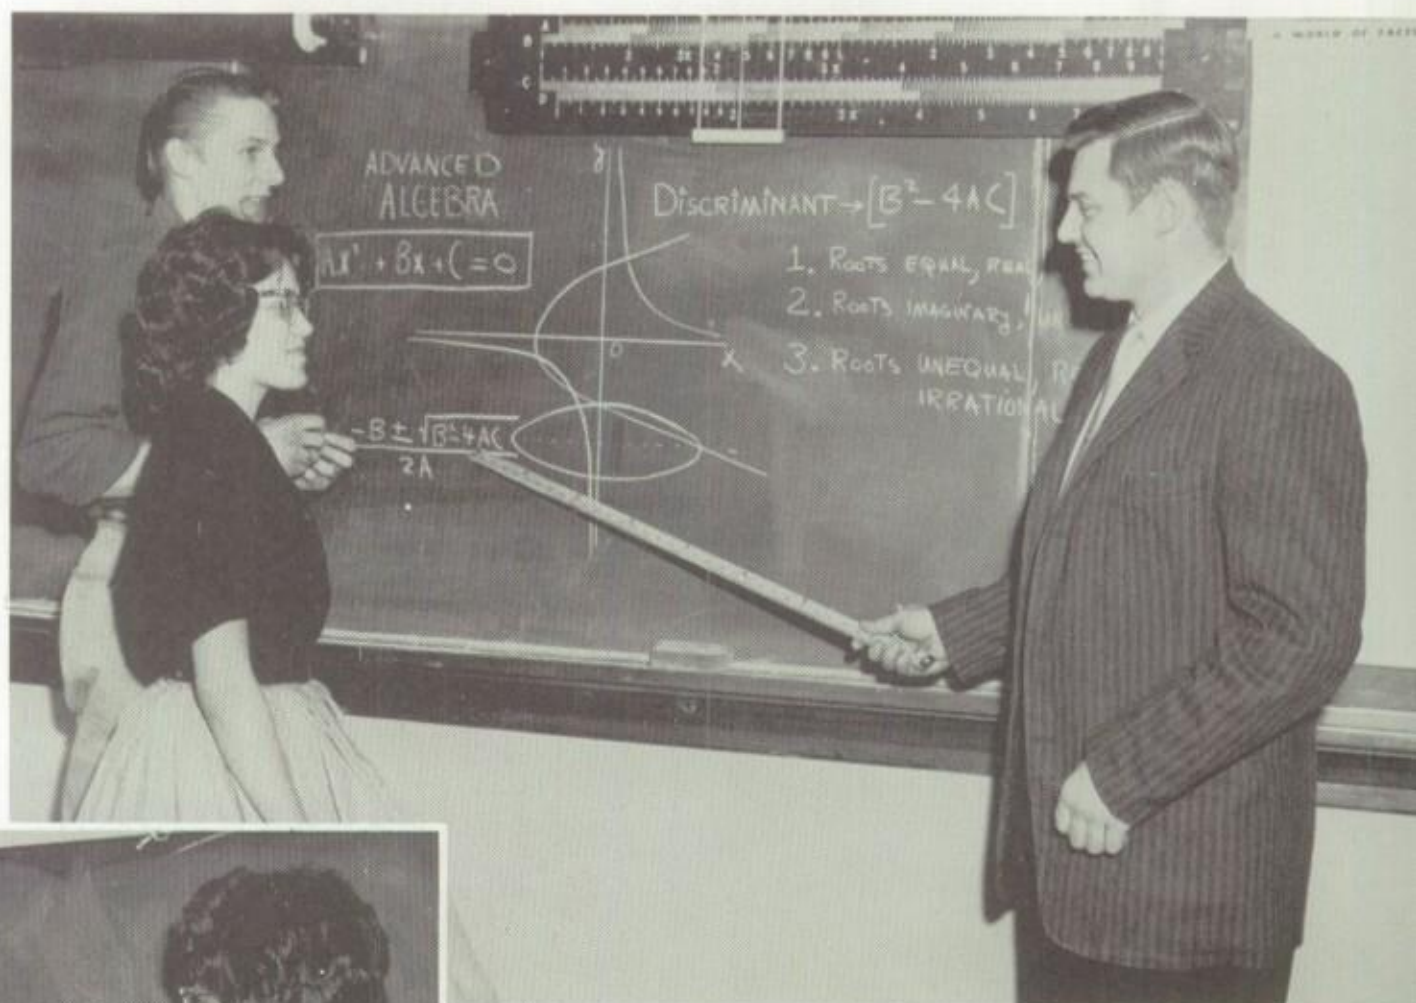

Guidance into a suitable vocation is just part of the services that Mr. Cissna renders to the students of G. H. S. Here he shows Bob Scheuerman some facts on a possible scholarship.

No social studies class is complete without a thorough study of maps and charts. As the rest of the class watches, Donna Krultz locates a region of great interest in current world affairs.

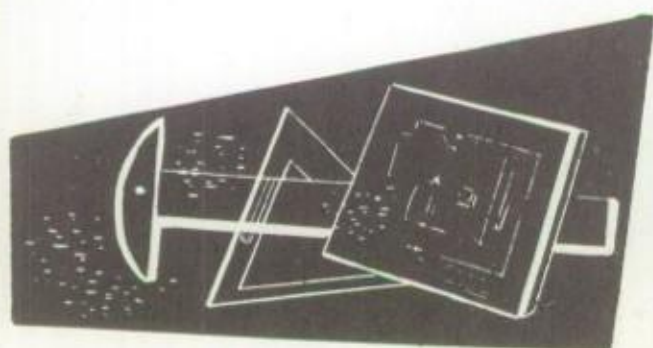

Mathematics Develops Numerical Reasoning

Mr. Ringlein explains to Angie Tolany and Vic Staut the use of the discriminant in finding the roots of an equation. Besides graphing, advanced algebra students also studied slide rule, trigonometry, sequences and series. This course helps prepare Senior students for college mathematics.

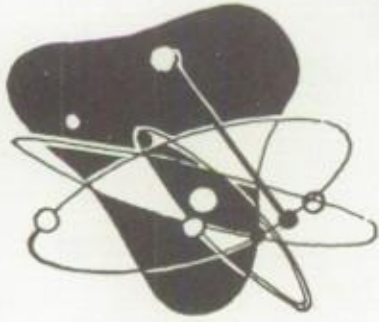

Geometry students lived in a world of geometric figures during the past year. Angles, squares, circles, triangles, and parallelograms were just a few of the many things studied. Here Tom LeDuc and Kathy Herr watch as Lloyd Abel draws a tangent to a circle.

In Mr. Meyer's algebra class, students are taught the basic fundamentals of algebra; such as, problem solving, simple equations, complex fractions and graphing. Marjorie Tolaney and John Stremikis show how to plot the graph of a linear equation.

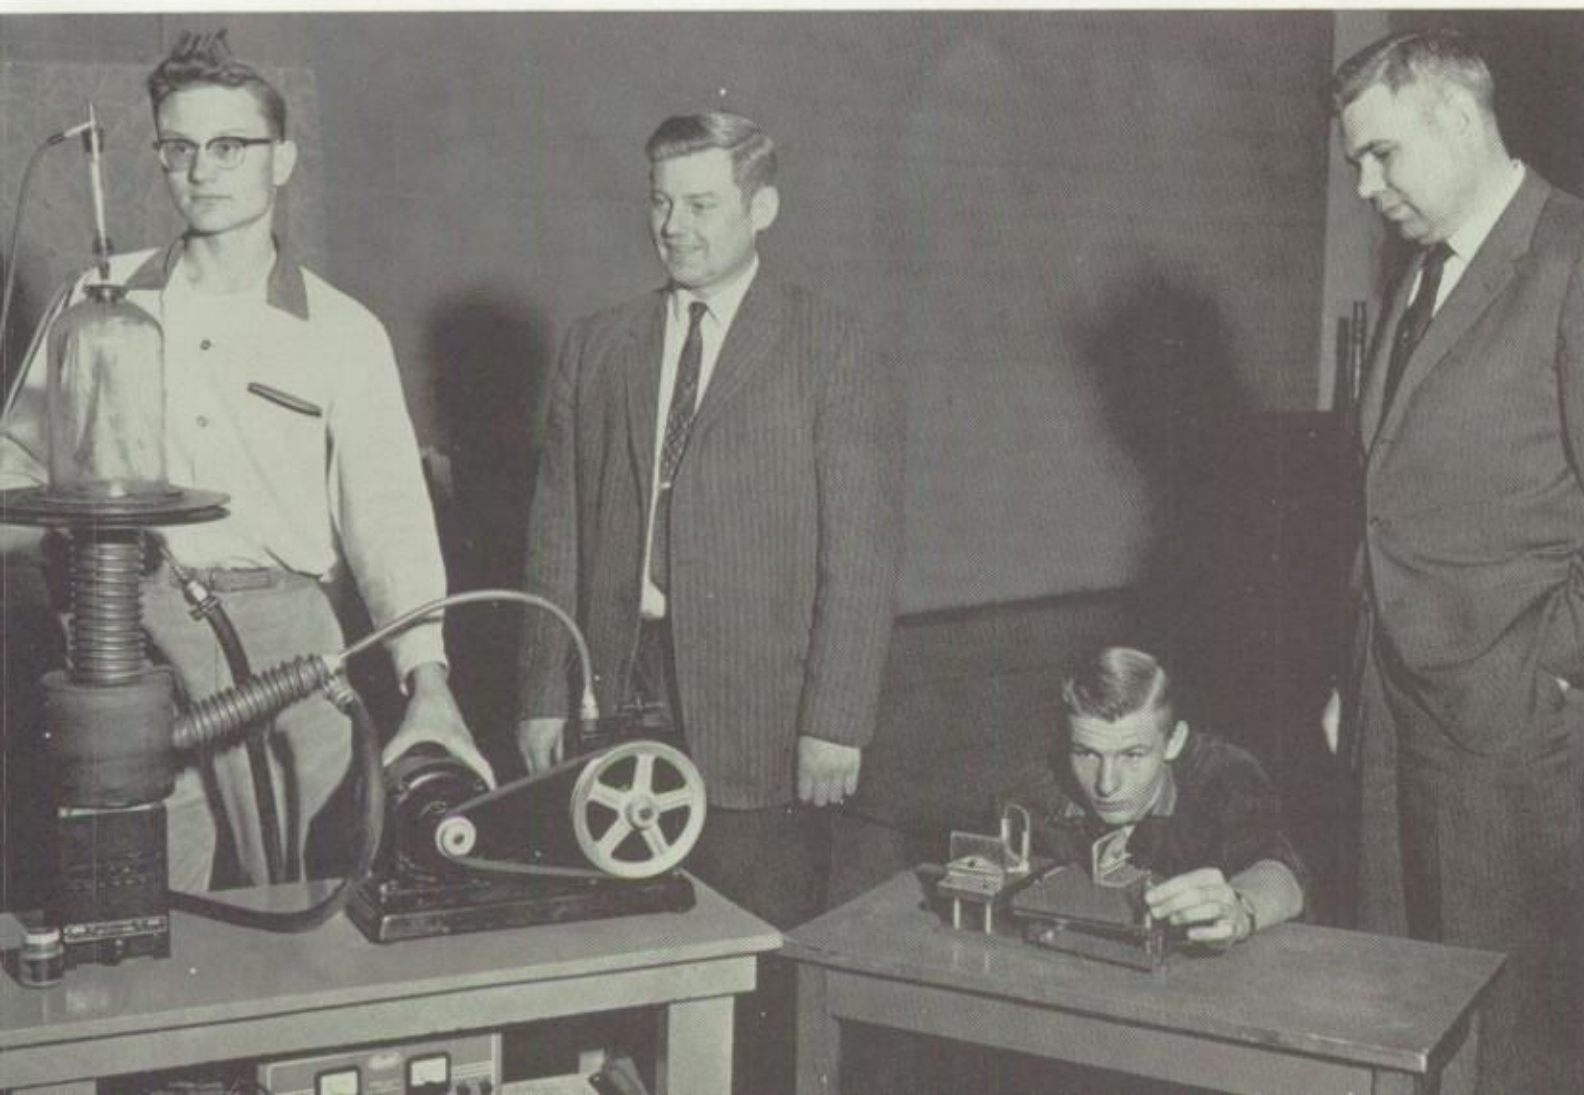

Science, the World of Today

Chemistry is designed to give students an opportunity to explore and experiment with chemical reactions and with the forming of compounds. As the teacher, Mr. Oldroyd watches, Clif Fonstad and Florence LeDuc perform a titration experiment, Gloria Celesnik carefully measures the chemical elements needed. Connie Buker prepares to analyze a substance from a recent experiment.

Chemistry — Physics

Students in Mr. Ringlein's physics class studied the theories of light energy, sound, heat, motion and electricity. Several lab sessions were held during each of the various phases of physics. A science exhibit climaxed the school year for the science department. Here two physics students, John Pernic and Vic Staut explain their projects to Mr. Ringlein and Mr. Fonstad. John built a diffusion pump and Vic built an interferometer.

Girls Learn Practical Skills

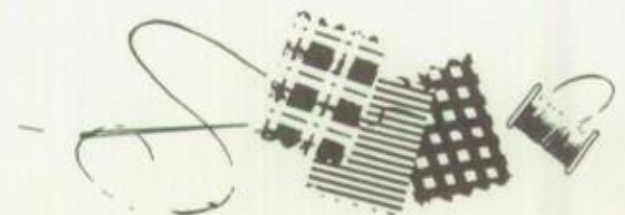

Mary Ann and Donna Auman, Donna Krultz and Hilda Turnquist prepare a meal under the direction of Mrs. Seidler. The Home Ec. girls learned to plan meals, prepare them appetizingly, and serve them delightfully.

Mrs. Seidler helps Kathy Gregorich, June Biddle, and Marjorie Tolaney with their sewing projects. The girls learned to fit, lay, and cut the pattern properly, and to operate a sewing machine. Cost, pattern, and color of the cloth were all taken into consideration before they started their outfits.

A lot of diligent work resulted in a style show for the public. A Mother's Tea for the Home Ec girls and their mothers climaxed the evening. Here Corrine Denk, with Dennis Humke as her escort, models a dress which she has made.

The Science of the Soil

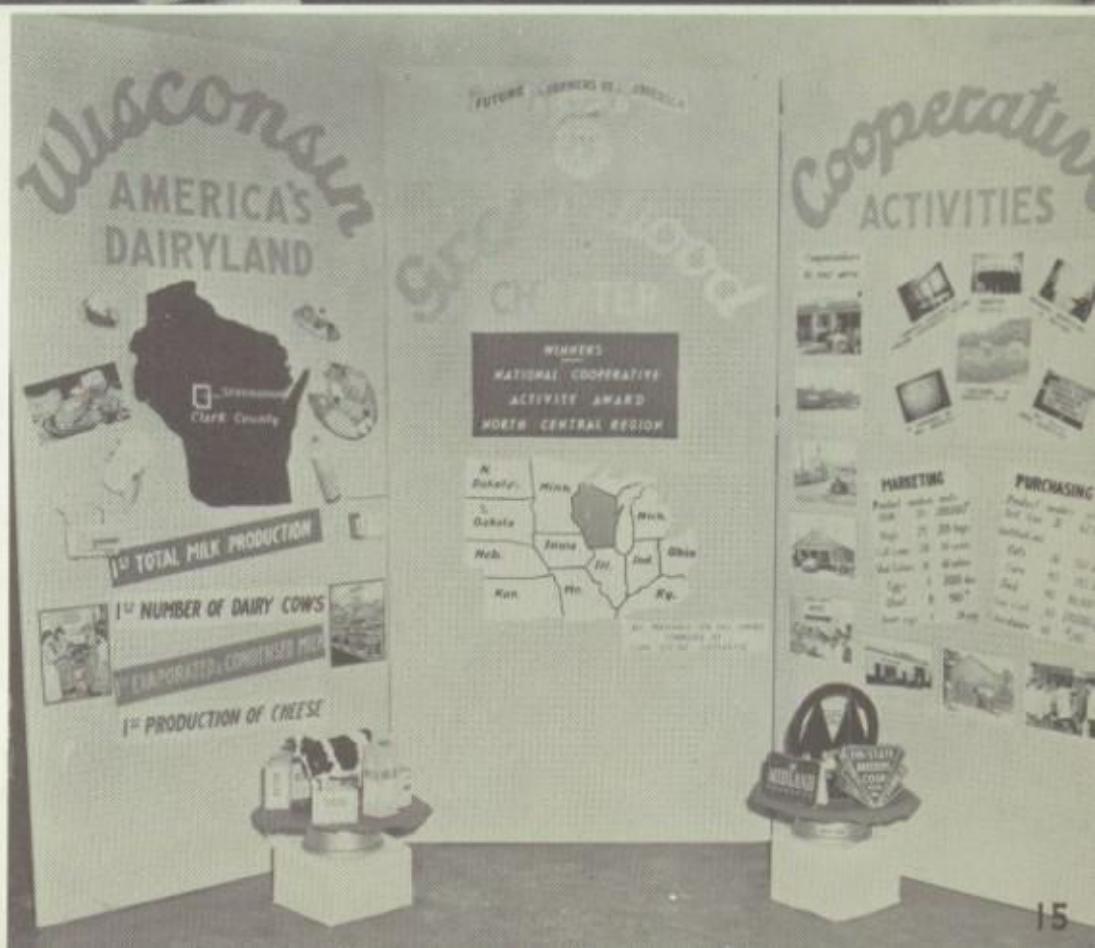

Agriculture offers farm boys many opportunities . . . leadership, study, and management are just a few. Gerald Olson and Val Krainz help Ken Horn and Jim Kessler with their testing records.

Allan Wessel and Larry Stremikis test milk, one of the many tasks Agriculture students learn. Besides general farming, they study forestry, conservation, and machinery up-keep . . . all important to good farming. Several sessions are spent in the shop where the boys do carpentry, machine repair, and welding.

This exhibit was used at Urbana, Illinois, last year. It shows some of the many activities our Agriculture boys do and awards received for their fine work.

Course of Study Offers a Wide Range

Greenwood has a very adequate commercial department. Here Mrs. Horn helps Judy Zagozen while the rest of the class works on a conditioning practice. Other commercial courses offered are shorthand, bookkeeping, and office practices.

One-two, touch your toes. Exercises like this kept Mrs. King's Physical Ed classes trim and fit, but also aching and groaning. Basketball, volleyball and bowling were a few of the sports they mastered this year.

When we students weren't in classes, we were in Study Hall, supposedly studying. Sometimes our studying was interrupted by spit wads and flying airplanes, but generally, Study Hall was used for its main purpose, studying.

The Future . . .

Jim Slemec and Frank Parkel fill the "TIME CAPSULE"

This was the year the new high school addition was built, and we were able to watch it progress throughout the school year. We made a copper "Time Capsule" to seal behind the cornerstone which contains articles that will give people in the future information about us, our school and community. The "Time Capsule" contains two issues of the "Echo," copies of the Greenwood Gleaner and Clark County Press, the 1959 Chieftain, an alumni list, a short history of Greenwood High School, a student handbook, a Greenwood telephone directory, a tape of music and talks by Student Council members and other things of interest.

The new high school addition was started in early June, 1959. Work continued through the year so that the building would be ready by the fall of 1960.

To get our final year at G. H. S. off to a great start, we the Seniors built a beautiful 1st prize float that won the Chamber of Commerce trophy. In October we had our Senior pictures taken. Off and on during the school year we held fund-raising school dances, which included two Record Hops. In January graduation still seemed a far off dream when we ordered our caps, gowns, and announcements. Toward the end of March we started planning for our class play and we chose a three-act comedy, "Meet Me At The Prom." Our play was staged May 10 and was well-liked by all attending. Baccalaureate was held May 15. On May 18 at 5:30 a. m. we went on our class trip to the Dells and Devil's Lake. We ate supper at the Hotel Mead in Wisconsin Rapids and the day was thoroughly enjoyed. Our last two days in high school were spent taking final exams. Now our high school days were but a memory, long to be remembered in the years to come. Commencement was May 23 and we, the class of 1960, go "out of school life and into life's school."

new fude,
I'm going to
to say "remember" or "don't
forget". Let's just "forget" the
bad times and keep "memories" of all the
good. It's been fun knowing you and I
hope we have lots more good times.
By the way - what is Al going to think
about those lost 300 seconds. I think it's a scandal.
If you're still speaking to me, fude,
after you read this you can use that
address too.
With its about time for me to finish
this chapter in the "Memorial of Our Comradeship".
Here's wishing the best of friends. I have fun in college -
especially the first week - and also on your vacation.
I must mention that I
thought the caption under my
senior picture would have
fit very well under yours
too.

He Al.
You don't know me,
but I know you. If you
want to know what I mean by
those lost 300 seconds, just
write to this address.
